

## Art and History Activity.

I would like you to sketch a portrait of Winston Churchill on an A4 piece of paper. It can be a black and white sketch, or you can colour it in with colouring pencils.

Then complete the comprehension activity. Now, I would like you to write the answers to the questions over the top of your drawing, so we have a drawing and information on the same page.

You will need to think of sentence starters (cohesive devices) so it doesn't read like a list of answers. You need to try and make it flow.
